User Manual
67W GaN Travel Ultra-fast Charger

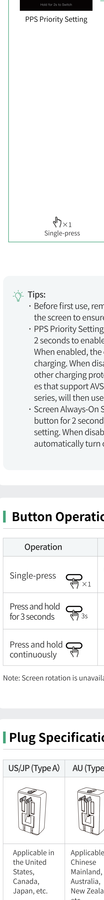

Model: X576

How It Works

Tips:
- Images shown are for illustrative purposes only. Please refer to the actual product.
- To ensure safe use, please disconnect the product from the power outlet if it will not be used for an extended period of time.

Display Screen (When a Device is Connected)

- Port
- Real-Time Output Power
- Maximum Power & Current Supported by the Connected Cable

- Port
- Real-Time Voltage/ Current
- Current Fast Charging Protocol

Settings

Temperature Monitoring

PPS Priority Setting

Screen Always-On Setting

Return to the Previous Screen

Real-Time Total Output Power

Tips:
- Before first use, remove the protective film from the screen to ensure optimal display clarity.
- PPS Priority Setting: Press and hold the button for 2 seconds to enable or disable PPS Priority Mode. When enabled, the charger prioritizes PPS for fast charging. When disabled, PPS is turned off, while other charging protocols remain available. Devices that support AVS, such as the iPhone 18 Pro series, will then use AVS for fast charging.
- Screen Always-On Setting: Press and hold the button for 2 seconds to enable or disable this setting. When disabled, the screen will automatically turn off after 5 minutes of inactivity.

Button Operation

Operation	Function
Single-press ×1	Wake screen/Cycle through display pages
Press and hold for 3 seconds 3s	Rotate screen (single rotation)
Press and hold continuously	Rotate screen (continuous rotation)

Note: Screen rotation is unavailable on the Settings page.
